SUBJECT INDEX: VOLUME 53

Absorption
Absorption and biokinetics of U in rats following an oral administration of uranyl nitrate solution 147
And excretion of radiocesium in the rat, effects of dietary K on 331
Accelerators
Absorbed dose in water irradiated by 2.5-GeV bremsstrahlung, measurement of 67
Moyer model and hadron transport calculations 425
Accidents, reactor
Atmospheric radioactivity in Valencia, Spain, due to the Chernobyl reactor accident 519
Chernobyl, questions about (letter to the editors) 691
External dose to a Japanese tourist from the Chernobyl reactor accident 405
Radioactivity measurements in northwest Italy after fallout from the reactor accident at Chernobyl 83
ALARA
Proposal for a generally applicable de minimis dose 117
Americium-241
From fallout, in human livers from the Federal Republic of Germany 533
Australia
Abstracts from the 11th Annual Conference of the Australian Radiation Protection Society, 20-22 August 1986, Sydney, Australia 907

Bioassay
Airborne natural uranium dioxide exposure, a comparison of ICRP Publication 30 lung model-based predictions with measured bioassay data for 59
Concentrations of alpha-emitting isotopes of U and Th in uranium miners' and millers' tissues 261
Data for Pu, the impact of an isotopic effect on the interpretation of 255
Bioeffects
Radiofrequency radiation activities and issues: a 1986 perspective 607
Bone
Dosimetry of alpha-emitting radionuclides in bone--a practical approach 495
Bremsstrahlung
Absorbed dose in water irradiated by 2.5-GeV bremsstrahlung, measurement of 67
Building materials
Made from phosphate industry waste products, radionuclide content of and Rn-222 emanation from 23

Calibration
Of a NaI spectrometer in dose equivalent quantities 295
Photon-energy calibration of Li-6I(Eu) crystals in mixed radiation fields using Na-24 191

Canada
Radiofrequency-exposure protection, proposed revision of the Canadian recommendations on 649
Cancer, lung
Histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs 527
Carbon-11
Dose to radiotherapy technologists from activation of patients at a fast neutron therapy facility 311
Carbon-14
Measurements of indoor Rn-222 in the region of Beijing, People's Republic of China 219
Carcinogenesis
Dosimetry of alpha-emitting radionuclides in bone--a practical approach 495
Prenatal x rays and cancers, comment on 200
Risk estimates using life-table methods, comparison of 123
Two recent breakthroughs (letter to the editors) 333
Cesium
Absorption and excretion of radiocesium in the rat, effects of dietary K on 331
Transfer coefficient for radiocesium transport from a sheep's diet to its milk, measurement of the 685
Chernobyl
Atmospheric radioactivity in Valencia, Spain, due to the Chernobyl reactor accident 519
External dose to a Japanese tourist from the Chernobyl reactor accident 405
Questions about the reactor accident (letter to the editors) 691
Radioactivity measurements in northwest Italy after fallout from the reactor accident at 83
China, People's Republic of
Measurements of indoor Rn-222 in the region of Beijing 219
Chromosome aberrations
Two recent breakthroughs (letter to the editors) 333
Cigarettes
Assessing the risks of Rn exposure: the influence of cigarette smoking, comments on 547
Histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs 527
Cobalt-60
In marine mollusks, comparative uptake from sea water and tissue distribution of 73
Computer applications
Radioisotope laboratories, a personal computer access control system for 537
Contamination, external
Conversion factors, electron dose-rate, for external exposure of the skin from uniformly deposited activity on the body surface 135
External dose to a Japanese tourist from the Chernobyl reactor accident 405
Conversion factors, dose-rate
For external exposure of the skin from uniformly deposited activity on the body surface 135

Corrections
Correction for: Neutron dosimetry in the containment of a pressurized water reactor using a neutron-sensitive beta/gamma dosimetry system. Health Phys. 50:761-768; 1986. 431
Correction for: Seasonal variation of indoor Rn at a location in the southwestern United States. Health Phys. 51:427-436; 1986. 201

De minimis
Proposal for a generally applicable de minimis dose 117
Detector, radiation
Environmental gamma-ray and Rn-222 detector, EGARD 301
Method of obtaining neutron dose and dose equivalent from digital measurements and analysis of recoil-particle tracks 241
Detectors, charcoal adsorption
Measuring indoor Rn-222 levels, reply to comments about 199
Comparison of nuclear track and diffusion barrier charcoal adsorption methods for measurement of Rn-222 levels in indoor air (letter to the editors) 198
Detectors, nuclear track
Comparison of nuclear track and diffusion barrier charcoal adsorption methods for measurement of Rn-222 levels in indoor air (letter to the editors) 198
Digital measurements and analysis of recoil-particle tracks, method of obtaining neutron dose and dose equivalent from 241
Long-term Rn-222 averages at environmental levels using alpha track detectors, measurement uncertainties of 447
Measuring indoor Rn-222 levels, reply to comments about (letter to the editors) 199
Solid State Nuclear Track Detection: Principles, Methods and Applications (book review) 550
Detectors, radiation
Angular dependence of shallow dose from energetic electrons 397
Solid State Nuclear Track Detection: Principles, Methods and Applications (book review) 550
Dogs
Histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in 527
Dose distribution
Beta-particle dosimetry, experimental and computational techniques for 37
Determining the beta dose distribution using a multiple-element thermoluminescent 49
Dose equivalent
Calculation of the estimated collective effective dose equivalent (S_E) due to x-ray diagnostic examinations--estimate of the S_E in Finland 31
Calibration of a NaI spectrometer in dose equivalent quantities 295
Intensive short-term U product inhalation, assessing dose equivalent from 673
Method of obtaining neutron dose and dose equivalent from digital measurements and analysis of recoil-particle tracks 241
Wt? No? ri? ali 421
Dose limits
Proposal for a generally applicable de minimis dose 117

Dose, absorbed
Estimating centerline gamma absorbed dose rates due to a continuous Gaussian plume, a simple approximation for 143
Measurement of, in water irradiated by 2.5-GeV bremsstrahlung 67
Dose, collective
Calculation of the estimated collective effective dose equivalent (S_E) due to x-ray diagnostic examinations--estimate of the S_E in Finland 31
Possibilities and limits for applying the concept of 9
Dose, external
Conversion factors, electron dose-rate, for external exposure of the skin from uniformly deposited activity on the body surface 135
To a Japanese tourist from the Chernobyl reactor accident 405
Dosimetry
Extremely low frequency electric and magnetic fields, interaction with humans 585
Introduction to Radiological Physics and Radiation Dosimetry (book review) 549
Of alpha-emitting radionuclides in bone--a practical approach 495
Very low frequency to microwaves, dosimetry associated with exposure to 569
Dosimetry, beta
Determining the beta dose distribution using a multiple-element thermoluminescent dosimeter system 49
Experimental and computational techniques for 37
Survey instrument design for accurate beta dosimetry, comments on 548
Dosimetry, electron
Conversion factors, electron dose-rate, for external exposure of the skin from uniformly deposited activity on the body surface 135
Dosimetry, internal
Bioassay data for Pu, the impact of an isotopic effect on the interpretation of 255
Dosimetry, neutron
Method of obtaining neutron dose and dose equivalent from digital measurements and analysis of recoil-particle tracks 241
Dosimetry, thermoluminescent
Beta-particle dosimetry, experimental and computational techniques for 37
Chest radiography, use of Teflon-embedded calcium sulfate: dysprosium thermoluminescent dosimeters for 631
Determining the beta dose distribution using a multiple-element thermoluminescent dosimeter system 49

Electromagnetic fields
Dosimetry associated with exposure to non-ionizing radiation: very low frequency to microwaves 569
Extremely low frequency electric and, interaction with humans 585
Radiofrequency-exposure protection, proposed revision of the Canadian recommendations on 649
Radiofrequency radiation activities and issues: a 1986 perspective 607

Electromagnetic fields (cont'd
Radiofrequency standards, reply to comments on editorial about 334
Static magnetic fields around magnetic resonance imaging devices, survey of 321
Electron spin resonance
External dose to a Japanese tourist from the Chernobyl reactor accident 405
Emanation, radon
Radon-222 emanation coefficients of U mill tailings, influence of ore type and milling process on 679
Emergency planning
Chernobyl, questions about (letter to the editors) 691
Errata
Correction for: Neutron dosimetry in the containment of a pressurized water reactor using a neutron-sensitive beta/gamma dosimetry system. Health Phys. 50:761-768; 1986. 431
Correction for: Seasonal variation of indoor Rn at a location in the southwestern United States. Health Phys. 51:427-436; 1986. 201
Europium-152
Depth profile of a stone bridge pillar exposed to the Hiroshima atomic bomb: Eu-152 activities for analysis of the neutron spectrum 227
Excretion
And absorption of radiocesium in the rat, effects of dietary K on the 331
Systemic Pu, comparison of estimates of, from urinary excretion with estimates from post-mortem tissue analysis 487
Exposure, occupational
Airborne natural uranium dioxide exposure, a comparison of ICRP Publication 30 lung model-based predictions with measured bioassay data for 59
Dose to radiotherapy technologists from activation of patients at a fast neutron therapy facility 311
Estimate of lifetime dose in persons exposed occupationally to x rays in Poland 503
Extracorporeal lithotripsy, patient and personnel exposure during 623
In uranium miners' and millers' tissues, concentrations of alpha-emitting isotopes of U and Th 261
Radioisotope laboratories, a personal computer access control system for personnel monitoring 537
Exposure, radiation
Advances in Radiation Biology. Vol. 12. Relative Radiation Sensitivities of Human Organ Systems (book review) 693
Europium-152 depth profile of a stone bridge pillar exposed to the Hiroshima atomic bomb: Eu-152 activities for analysis of the neutron spectrum 227
Extracorporeal lithotripsy, patient and personnel exposure during 623
Forecasting radiation rates and exposure from multi-aged fallout 613
Prenatal x rays and cancers, comment on (letter to the editors) 200
Radiation stimulation during the early stationary growth phase in Synechoccus lividus and its correlation with photooxidative stress occurring before the stationary phase 281
Risk estimates using life-table methods, comparison of 123

Fallout
Atmospheric radioactivity in Valencia, Spain, due to the Chernobyl reactor accident 519
Decay rate of gamma radiation from nuclear weapons fallout 313
External dose to a Japanese tourist from the Chernobyl reactor accident 405
Forecasting radiation rates and exposure from multi-aged fallout 613
Radioactivity measurements in northwest Italy after fallout from the reactor accident at Chernobyl 83
Tritium ingestion from, in Akita, Japan 287
Finland
Calculation of the estimated collective effective dose equivalent (S_E) due to x-ray diagnostic examinations--estimate of the S_E in Finland 31
Fish
Bluegill, Lepomis macrochirus, and catfish, Ictalurus punctatus, bioaccumulations factor for P-32 measured in 389

Gaussian plume
Estimating centerline gamma absorbed dose rates due to a continuous Gaussian plume, a simple approximation for 143
Germany, Federal Republic of
Fallout Am-241 in human livers from 533
Possibilities and limits for applying the concept of collective dose 9

Hazards, ocular
Laser beam scintillation in strong refractive turbulence relevant to eye safety, measured statistics of 639
Health Physics Society
Focusing on environmental health physics. Editorial 217
President's message--1987. A wealth of talent xvii (Aug. 1987)
Editorial The expanding power reactor community. 349
Editorial Writing book reviews. 565
Hiroshima
Europium-152 depth profile of a stone bridge pillar exposed to the Hiroshima atomic bomb: Eu-152 activities for analysis of the neutron spectrum 227
History of radiation protection
Obituary. John Austin Victoreen (1902--1986) 113
Hong Kong
Indoor and outdoor Rn-222 and Rn-220 daughters in 175
Hormesis, radiation
Radiation stimulation during the early stationary growth phase in Synechoccus lividus and its correlation with photooxidative stress occurring before the stationary phase 281

Imaging
Calculation of the estimated collective effective dose equivalent (S_E) due to x-ray diagnostic examinations--estimate of the S_E in Finland 31
Chest radiography, use of Teflon-embedded calcium sulfate: dysprosium thermoluminescent dosimeters for 631
Mammography, shielding requirements for 267

Imaging (cont'd)
NMR in Medicine: The Instrumentation and Clinical Applications (Medical Physics Monograph No. 14) (book review) 96
Static magnetic fields around magnetic resonance imaging devices, survey of 321
Ingestion
Absorption and biokinetics of U in rats following an oral administration of uranyl nitrate solution 147
Absorption and excretion of radiocesium in the rat, effects of dietary K on the 331
Daily intake of U-234, U-235, U-238, Th-228, Th-230, Th-232, Ra-226 and Ra-228 by New York City residents 357
Of fallout tritium, in Akita, Japan 287
Plutonium absorption in the rat, the effect of ingested mass on 187
Systemic Pu, comparison of estimates of, from urinary excretion with estimates from post-mortem tissue analysis 487
Inhalation
Airborne natural uranium dioxide exposure, a comparison of ICRP Publication 30 lung model-based predictions with measured bioassay data for 59
Daily intake of U-234, U-235, U-238, Th-228, Th-230, Th-232, Ra-226 and Ra-228 by New York City residents 357
Deposition and retention patterns of a U-Pu chain aggregate aerosol 365
Intensive short-term U product inhalation, assessing dose equivalent from 673

Japan
Europium-152 depth dose profile of a stone bridge pillar exposed to the Hiroshima atomic bomb: Eu-152 activities for analysis of the neutron spectrum 227
Fallout H-3 ingestion in Akita, Japan 287

Lasers
Eye safety, measured statistics of laser beam scintillation in strong refractive turbulence relevant to 639
Lead-212
Aerodynamic size associations of Pb-212 and Pb-214 in ambient aerosols 461
Lead-214
Aerodynamic size associations of Pb-212 and Pb-214 in ambient aerosols 461
Linear energy transfer
Simple parameterization for quality factor as a function of 531
Liquid scintillation
Alpha Counting and Spectrometry Using Liquid Scintillation Methods (book review) 95
Lithotripsy, extracorporeal
Patient and personnel exposure during 623

Magnetic fields
Dosimetry associated with exposure to non-ionizing radiation: very low frequency to microwaves 569
Extremely low frequency electric and, interaction with humans 585
Radiofrequency-exposure protection, proposed revision of the Canadian recommendations on 649

Magnetic fields (cont'd)
Radiofrequency radiation activities and issues: a 1986 perspective 607
Radiofrequency standards, reply to comments on editorial about 334
Static magnetic fields around magnetic resonance imaging devices, survey of 321
Magnetic resonance
Static magnetic fields around magnetic resonance imaging devices, survey of 321
Mammography
Shielding requirements for 267
Microwaves
Dosimetry associated with exposure to very low frequency to microwave radiation 569
Mining, uranium
Concentrations of alpha-emitting isotopes of U and Th in uranium miners' and millers' tissues 261
Intensive short-term U product inhalation, assessing dose equivalent from 673
Radon-222 emanation coefficients of U mill tailings, influence of or type and milling process on 679
Models
Estimating centerline gamma absorbed dose rates due to a continuous Gaussian plume, a simple approximation for 143
Moyer model and hadron transport calculations 425
Transfer coefficient for radiocesium transport from a sheep's diet to its milk, measurement of the 685
Mollusks
Comparative uptake from sea water and tissue distribution of Co-60 in marine mollusks 73
Monitoring, environmental
Atmospheric radioactivity in Valencia, Spain, due to the Chernobyl reactor accident 519
Long-term Rn-222 averages at environmental levels using alpha track detectors, measurement uncertainties of 447
Radioactivity measurements in northwest Italy after fallout from the reactor accident at Chernobyl 83
Radon-222 levels in houses, comparison of purchased measurements with measurements in randomly selected houses as a source of information on 409
Monitoring, personnel
Radioisotope laboratories, a personal computer access control system for 537
Monte Carlo
Study of electron spectra produced in semi-infinite and finite water phantoms irradiated by photons of energies up to 2 MeV 163

Neutron fluence
Europium-152 depth profile of a stone bridge pillar exposed to the Hiroshima atomic bomb: Eu-152 activities for analysis of the neutron spectrum 227
Neutrons
At a fast neutron therapy facility, dose to radiotherapy technologists from activation of patients 311
Cosmic-ray neutrons, altitude variation of 509

Nuclear magnetic resonance
NMR in Medicine: The Instrumentation and Clinical Applications (Medical Physics Monograph No. 14) (book review) 96
Static magnetic fields around magnetic resonance imaging devices, survey of 321
Nuclear medicine
Dose to radiotherapy technologists from activation of patients at a fast neutron therapy facility 311
Dosimetry and Clinical Uses of Afterloading Systems (Report No. 45) (book review) 97
Extracorporeal lithotripsy, patient and personnel exposure during 623
Health care workers' perceptions of risks 541
Radiation Protection in Radiotherapy (Report No. 46) (book review) 96
Radioisotope laboratories, a personal computer access control system for 537
Nuclear weapons
Decay rate of gamma radiation from fallout from 313
Forecasting radiation rates and exposure from multi-aged fallout 613
Managing Nuclear Operations (book review) 550
Nutrition pathway
Daily intake of U-234, U-235, U-238, Th-228, Th-230, Th-232, Ra-226 and Ra-228 by New York City residents 357
Fallout H-3 ingestion in Akita, Japan 287
Radioactivity measurements in northwest Italy after fallout from the reactor accident at Chernobyl 83

Obituary
Obituary. John Austin Victoreen (1902--1986) 113
Oxygen-15
Dose to radiotherapy technologists from activation of patients at a fast neutron therapy facility 311

Phantom
Absorbed dose in water irradiated by 2.5-GeV bremsstrahlung, measurement of 67
Monte Carlo study of electron spectra produced in semi-infinite and finite water phantoms irradiated by photons of energies up to 2 MeV 163
Phosphate
Building materials made from phosphate industry waste products, radionuclide content of and Rn-222 emanation from 23
Phosphorus-32
Bioaccumulation factor for P-32 measured in bluegill, Lepomis macrochirus, and catfish, Ictalurus punctatus 389
Photons
Monte Carlo study of electron spectra produced in semi-infinite and finite water phantoms irradiated by photons of energies up to 2 MeV 163
Photon-energy calibration of ^{6}LiI(Eu) crystals in mixed radiation fields using Na-24 191
Physics, radiological
Introduction to Radiological Physics and Radiation Dosimetry (book review) 549

Plutonium
Absorption in the rat, the effect of ingested mass on 187
Dissolution of relatively insoluble particles containing Pu, effect of wet and dry cycles on 377
Inhalation deposition and retention patterns of a U-Pu chain aggregate aerosol 365
Isotopic effect on the interpretation of bioassay data for Pu, the impact of an 255
Systemic Pu, comparison of estimates of, from urinary excretion with estimates from post-mortem tissue analysis 487

Poland
Estimate of lifetime dose in persons exposed occupationally to x rays in 503

Potassium
Absorption and excretion of radiocesium in the rat, effects of dietary K on the 331

Public information
Health care workers' perceptions of risks 541
Nuclear Waste Primer: A Handbook for Citizens (book review) 95

Quality factor
Simple parameterization for quality factor as a function of linear energy transfer 531

Radiation, alpha
Alpha Counting and Spectrometry Using Liquid Scintillation Methods (book review) 95
Concentrations of alpha-emitting isotopes of U and Th in uranium miners' and millers' tissues 261
Dosimetry of alpha-emitting radionuclides in bone--a practical approach 495
Long-term Rn-222 averages at environmental levels using alpha track detectors, measurement uncertainties of 447

Radiation, beta
Decay rate of, from nuclear weapons fallout 313
Determining the beta dose distribution using a multiple-element thermoluminescent dosimeter system 49
Experimental and computational techniques for beta-particle dosimetry 37
Survey instrument design for accurate beta dosimetry, comments on 548

Radiation, gamma
Counting losses in gamma-ray spectrometry not eliminated by Dead-time correction circuitry, comment on (letter to the editors) 198
Counting losses in gamma-ray spectrometry, reply to comments on (letter to the editors) 198
Decay rate of, from nuclear weapons fallout 313
Environmental gamma-ray and Rn-222 detector, EGARD 301
Estimating centerline gamma absorbed dose rates due to a continuous Gaussian plume, a simple approximation for 143

Radiation, low-level
Effects of continuous low-level exposure to radiofrequency radiation, reply to Lu and Michaelson regarding 546

Radiation, low-level (cont'd)
Radiation stimulation during the early growth phase in Synechoccus lividus and its correlation with photooxidative stress occurring before the stationary phase 281
Two recent breakthroughs (letter to the editors) 333
Radiation, microwave
IRPA pulsed radiofrequency guidelines, an interim note about applying the 197
Radiation, natural
Building materials made from phosphate industry waste products, radionuclide content of and Rn-222 emanation from 23
Cosmic-ray neutrons, altitude variation of 509
Radiation, non-ionizing
Editorial about radiofrequency standards by D.H. Sliney, M.L. Wolbarsht and A.M. Muc, comments on 327
Effects of continuous low-level exposure to radiofrequency radiation on intrauterine development in rats, comments on 545
Extremely low frequency electric and magnetic fields, interaction with humans 585
IRPA pulsed radiofrequency guidelines, an interim note about applying the 197
Laser beam scintillation in strong refractive turbulence relevant to eye safety, measured statistics of 639
Radiofrequency radiation activities and issues: a 1986 perspective 607
Radiofrequency standards, reply to comments on editorial about (letter to the editors) 334
Static magnetic fields around magnetic resonance imaging devices, survey of 321
Very low frequency to microwave radiation, dosimetry associated with exposure to 569
Radiation, radiofrequency
IRPA pulsed radiofrequency guidelines, an interim note about applying the 197
Radiofrequency standards, reply to comments on editorial about (letter to the editors) 334
Radiofrequency-exposure protection, proposed revision of the Canadian recommendations on 649
Radioactivity, environmental
Focusing on environmental health physics. Editorial 217
Radioactivity, natural
Concentration profiles and variations of Rn-222 in a vadose zone, soil water effects on 181
Determining Rn-222 diffusion lengths in soils and sediments 455
Effective removal of airborne Rn-222 decay products inside buildings 351
Indoor and outdoor Rn-222 and Rn-220 daughters in Hong Kong 175
Of the atomic spa at Podčetrtek, Slovenia, Yugoslavia 307
Radon emanation from natural deposits of U and remedial actions, comments on (letter to the editors) 93
Selected U- and Th-series radionuclides in biological samples, nondestructive determination of 417
Radiofrequency
Comments on the editorial about radiofrequency standards by D.H. Sliney, M.L. Wolbarsht and A.M. Muc 327

Radiofrequency (cont'd)
Effects of continuous low-level exposure to radiofrequency radiation on intrauterine development in rats, comments on 545
Effects of continuous low-level exposure to radiofrequency radiation, reply to Lu and Michaelson regarding 546
Radiofrequency radiation activities and issues: a 1986 perspective 607
Radium-226
Concentration profiles and variations of Rn-222 in a vadose zone, soil water effects on 181
Radon-222 emanation coefficients of U mill tailings, influence of or type and milling process on 679
Radon
Assessing the risks of Rn exposure: the influence of cigarette smoking, comments on 547
Emanation from natural deposits of U and remedial actions, comments on (letter to the editors) 93
Histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs 527
Long-term Rn-222 averages at environmental levels using alpha track detectors, measurement uncertainties of 447
Radon daughters
Effective removal of airborne Rn-222 decay products inside buildings 351
Histologic study of the influence of cigarette smoking in suppressing Rn daughter carcinogenesis in dogs 527
In houses, some measurements of the equilibrium factor for Rn-222 daughters 89
Indoor and outdoor Rn-222 and Rn-220 daughters in Hong Kong 175
Radon, indoor
Comparison of purchased measurements with measurements in randomly selected houses as a source of information on Rn-222 levels in houses 409
Effective removal of airborne Rn-222 decay products inside buildings 351
Equilibrium factor for Rn-222 daughters in houses, some measurements of the 89
Indoor and outdoor Rn-222 and Rn-220 daughters in Hong Kong 175
Measuring indoor Rn-222 levels, reply to comments about 199
Radioactivity of the atomic spa at Podcetrtek, Slovenia, Yugoslavia 307
Radon-222 levels in indoor air, on the comparison of nuclear track and diffusion barrier charcoal adsorption methods for measurement of 198
Radon-220
Indoor and outdoor Rn-222 and Rn-220 daughters in Hong Kong 175
Radon-222
Building materials made from phosphate industry waste products, radionuclide content of and Rn-222 emanation from 23
Concentration profiles and variations of Rn-222 in a vadose zone, soil water effects on 181
Determining Rn-222 diffusion lengths in soils and sediments 455
Effective removal of airborne decay products inside buildings 351
Emanation coefficients of U mill tailings, influence of or type and milling process on 679

Radon-222 (cont'd)
Environmental gamma-ray and Rn-222 detector, EGARD 301
Flux density measurements using an accumulator: an alternative technique 525
In houses, some measurements of the equilibrium factor for Rn-222 daughters 89
Indoor and outdoor Rn-222 and Rn-220 daughters in Hong Kong 175
Levels in houses, comparison of purchased measurements with measurements in randomly selected houses as a source of information on 409
Levels in indoor air, on the comparison of nuclear track and diffusion barrier charcoal adsorption methods for measurement of 198
Measurements in the region of Beijing, People's Republic of China 219
Measuring indoor levels, reply to comments about 199
Uncertainties in estimating risk due to Rn-222 in U.S. public drinking water supplies, a Bayesian analysis or scientific judgment of 11

Reactors, power
Editorial. The expanding power reactor community 349

Respiratory system
Airborne natural uranium dioxide exposure, a comparison of ICRP Publication 30 lung model-based predictions with measured bioassay data for 59
Inhalation deposition and retention patterns of a U-Pu chain aggregate aerosol 365
Intensive short-term U product inhalation, assessing dose equivalent from 673

Risk analysis
Risk estimates using life-table methods, comparison of 123
Two recent breakthroughs (letter to the editors) 333
Uncertainties in estimating risk due to Rn-222 in U.S. public drinking water supplies, a Bayesian analysis or scientific judgment of 11

Rodents
Absorption and biokinetics of U in rats following an oral administration of uranyl nitrate solution 147
Absorption and excretion of radiocesium in the rat, effects of dietary K on the 331
Biological concentration of H-3 385
Does tributyl phosphate influence the radiation risk of a highly proliferating system--the early mouse embryo *in vitro*? 667
Effects of continuous low-level exposure to radiofrequency radiation, reply to Lu and Michaelson regarding 546
Plutonium absorption in the rat, the effect of ingested mass on 187

Safety standards
Chernobyl, questions about 691
Counting losses in gamma-ray spectrometry not eliminated by Dead-time correction circuitry, comment on (letter to the editors) 198
Counting losses in gamma-ray spectrometry, reply to comments on (letter to the editors) 198

Safety standards (cont'd)
Editorial about radiofrequency standards by D.H. Sliney, M.L. Wolbarsht and A.M. Muc, comments on 327
IRPA pulsed radiofrequency guidelines, an interim note about applying the 197
Possibilities and limits for applying the concept of collective dose 9
Proposal for a generally applicable de minimis dose 117
Radiation Protection in Radiotherapy (Report No. 46) (book review) 96
Radiofrequency standards, reply to comments on editorial about (letter to the editors) 334
Scandanavia
Calculation of the estimated collective effective dose equivalent (S_E) due to x-ray diagnostic examinations--estimate of the S_E in Finland 31
Shielding
Absorbed dose in water irradiated by 2.5-GeV bremsstrahlung, measurement of 67
Mammography, shielding requirements for 267
Skeleton
Dosimetry of alpha-emitting radionuclides in bone--a practical approach 495
Sodium-24
Photon-energy calibration of ^{6}LiI(Eu) crystals in mixed radiation fields using Na-24 191
Spain
Atmospheric radioactivity in Valencia, Spain, due to the Chernobyl reactor accident 519
Specific absorption rate
Dosimetry associated with exposure to non-ionizing radiation: very low frequency to microwaves 569
Spectrometry
Calibration of a NaI spectrometer in dose equivalent quantities 295
Spectrometry, alpha
Alpha Counting and Spectrometry Using Liquid Scintillation Methods (book review) 95
Spectrometry, gamma
Counting losses in gamma-ray spectrometry not eliminated by Dead-time correction circuitry, comment on (letter to the editors) 198
Counting losses in, reply to comments on (letter to the editors) 198
Selected U- and Th-series radionuclides in biological samples, nondestructive determination of 417

Tailings, uranium mill
Radon emanation from natural deposits of U and remedial actions, comments on (letter to the editors) 93
Radon-222 emanation coefficients of U mill tailings, influence of ore type and milling process on 679
Thorium
Concentrations of alpha-emitting isotopes of U and Th in uranium miners' and millers' tissues 261
Selected U- and Th-series radionuclides in biological samples, nondestructive determination of 417

Transfer coefficient
For radiocesium transport from a sheep's diet to its milk, measurement of the 685
Transport, atmospheric
Atmospheric radioactivity in Valencia, Spain, due to the Chernobyl reactor accident 519
Multi-aged fallout, forecasting radiation rates and exposure from 613
Transport, environmental
Atmospheric radioactivity in Valencia, Spain, due to the Chernobyl reactor accident 519
Airborne natural uranium dioxide exposure, a comparison of ICRP Publication 30 lung model-based predictions with measured bioassay data for 59
Bioaccumulation factor for P-32 measured in bluegill, Lepomis macrochirus, and catfish, Ictalurus punctatus 389
Biological concentration of tritium 385
Comparative uptake from sea water and tissue distribution of Co-60 in marine mollusks 73
Daily intake of U-234, U-235, U-238, Th-228, Th-230, Th-232, Ra-226 and Ra-228 by New York City residents 357
Fallout H-3 ingestion in Akita, Japan 287
Fallout Am-241 in human livers from the Federal Republic of Germany 533
Improved environmental pathway model for assessing high-level waste repository risks 473
Multi-aged fallout, forecasting radiation rates and exposure from 613
Radioactivity measurements in northwest Italy after fallout from the reactor accident at Chernobyl 83
Transfer coefficient for radiocesium transport from a sheep's diet to its milk, measurement of the 685
Tributyl phosphate
Influence on the radiation risk of a highly proliferating system--the early mouse embryo in vitro 667
Tritium
Biological concentration of 385
Fallout tritium ingestion in Akita, Japan 287
Tritium-free water, preparation of 325

Uptake
Absorption and biokinetics of U in rats following an oral administration of uranyl nitrate solution 147
Comparative uptake from sea water and tissue distribution of Co-60 in marine mollusks 73
Fallout Am-241 in human livers from the Federal Republic of Germany 533
Uranium
Absorption and biokinetics of U in rats following an oral administration of uranyl nitrate solution 147
Airborne natural uranium dioxide exposure, a comparison of ICRP Publication 30 lung model-based predictions with measured bioassay data for 59
Concentrations of alpha-emitting isotopes of U and Th in uranium miners' and millers' tissues 261
Intensive short-term U product inhalation, assessing dose equivalent from 673

Uranium (cont'd)
Of a U-Pu chain aggregate aerosol, inhalation deposition and retention patterns 365
Radon emanation from natural deposits of U and remedial actions, comments on (letter to the editors) 93
Selected U- and Th-series radionuclides in biological samples, nondestructive determination of 417
Uranium mining
Concentrations of alpha-emitting isotopes of U and Th in uranium miners' and millers' tissues 261
In uranium miners' and millers' tissues, concentrations of alpha-emitting isotopes of U and Th 261
Radon emanation from natural deposits of U and remedial actions, comments on (letter to the editors) 93

Waste disposal
Nuclear Waste Primer: A Handbook for Citizens (book review) 95
Waste management
Nuclear Waste Primer: A Handbook for Citizens (book review) 95
Water, drinking
Uncertainties in estimating risk due to Rn-222 in U.S. public drinking water supplies, a Bayesian analysis or scientific judgment of 11
Water, fresh
Bioaccumulation factor for P-32 measured in bluegill, Lepomis macrochirus, and catfish, Ictalurus punctatus 389
Water, ground
Concentration profiles and variations of Rn-222 in a vadose zone, soil water effects on 181
Water, salt
Comparative uptake from and tissue distribution of Co-60 in marine mollusks 73
Weapons
Europium-152 depth profile of a stone bridge pillar exposed to the Hiroshima atomic bomb: Eu-152 activities for analysis of the neutron spectrum 227
Multi-aged fallout, forecasting radiation rates and exposure from 613

X rays
Calculation of the estimated collective effective dose equivalent (S_E) due to x-ray diagnostic examinations--estimate of the S_E in Finland 31
Estimate of lifetime dose in persons exposed occupationally to x rays in Poland 503
Prenatal x rays and cancers, comment on 200

Yugoslavia
Radioactivity of the atomic spa at Podcetrtek, Slovenia, Yugoslavia 307
